

Technical Heat Treatment Services Ltd.

Quality Policy Statement

*The management program of Technical Heat Treatment Services Ltd. is intended to promote continuous improvement in the quality of our services and to promote a safety culture by implementing practices that contribute to worker performance and supporting staff in carrying out their tasks **Safely and Successfully**.*

The management system has been implemented to comply with regulatory bodies, and meet the needs of our relevant stakeholders through technical excellence, and efficient service delivery. At THT, these terms encompass the following ideals:

Technical Excellence

- Utilization of trained and competent technicians in the delivery of our services
- Investment in the appropriate technology to meet long term client needs

Service Delivery

- Clear service delivery objectives to meet client specifications
- Realistic work plan and schedule

Signed:

January 2020

Michael Boies, President Technical Heat Treatment Services Ltd.
